Good afternoon Jose:

Can you ask Emma Blanco to provide the drinking water supply sampling results for the past 6 months from each of the PRASA water supply wells in Cabo Rojo to Denise Zeno of my staff. We need these for an upcoming public meeting in Cabo Rojo in May where will describe our sampling and investigation status to the community and I am sure the people will ask about their drinking water quality. Her email is zeno.denise@epa.gov and her phone number is 212-637-4319. Emma and Denise have been in contact before.

Thank you

Mel
